TOP FIVE TIPS For choosing the right banner

With so many banners to choose from, how do you decide which is the right one for the job?

1. Consider where and how your banner will be used — indoors or outdoors, occasionally or everyday.
2. Select the correct type of material — e.g. banner vinyl, mesh, textile fabric or stop-light polyester.
3. How quickly do you need to change or replace graphics? If often, consider a cassette banner option, if not a roller banner is the ideal solution.
4. What is your budget? Choose from basic if use is a one-off or short promotion, right up to premium for when a quality product is required for extended use.
5. Size matters! Banners come in a wide range of heights and widths. Consider the environment and space available, banners should gain the interest of your customer, but not get in their way.
